Wouldn't that be like lying?

Just joking, already ran into the smith folks at the airport. I actually met most of them in Arkansas at the prescription drug abuse summit a month ago.

Also, as we discussed yesterday, I reached out to all the members attending the meeting yesterday to see if they are attending the GAO meeting and if they are, Allison and I would like to meet with them beforehand. Only smith responded that they would be attending the meeting.

Great idea.

Also, although it asks that everyone not talk to others before the meeting, I see nothing wrong with letting Smith drug, who is a member of HDMA's, know how we're planning to handle it, if they ask and there's an opportunity to do so before hand. I see that as different from the others sharing information who are separate, individual companies. (You don't have to tell GAO if you do.)

Make sure they go around the room and make everyone introduce themselves. Say hi to Alan Must from Purdue Pharma.
